This Month's FREE Presentation!

Excel for Genealogists

Presented by Stewart Blandón Traiman

Stewart loves spreadsheets! He uses spreadsheets at work every day as an IT Manager. He is an expert in Microsoft Excel using it in genealogy quite frequently. Laying out all the data in Excel can help researchers see gaps in knowledge or correlations between data points.

Breakthroughs can easily happen by visualizing data in spreadsheets. Stewart shows many examples of his use of spreadsheets to track newspaper clippings, a vital records catalog, tracking ancestor addresses over time, and tracking whole families over many censuses. Stewart will teach how to use Excel filter, sorting, color coding, calculations and many other functions.

Spreadsheets are fun!

Volunteers

If you have been thinking about contributing some of your time and talent to our 125-year-old organization, take a look at our list of **Volunteer Opportunities**.

Want more information about a particular volunteer position? Contact Volunteers@californiaancestors.org if you have any questions about

CGS volunteer opportunities.

Remember - CGS has been around since 1898 and is operated solely by volunteers. We couldn't do it without you!

CGS Revamping the Membership Committee

In order to provide more opportunities for our members to network and advance their genealogy, this spring we are creating some new ways for our members to interact.

- Local member coffees for CGS members who live near each other.
- Distant member meetings to provide members who live away from the CGS library with a chance to connect.
- More fun ideas are in the works - maybe you have a few too?

We will be contacting new members to learn what they would like to discover so we can connect them with other members who have common research interests.

We are also creating manageable volunteer positions that can be done remotely or in-person at the CGS library. We hope to entice you to contact us to see if there is a fit.

- Do you have writing skills? We could use your help with the blog, eNews, and more.
- Do you enjoy networking and interacting with others? We need help on the Membership and Outreach committees to call members, organize events, and identify resources to help members with their research projects.
- Do you have an interest in providing interesting programs for members? The Program committee would be a good fit. There are in-person and remote opportunities.
- Do you have an ideas you would like to share with us?

These manageable jobs will not only strengthen CGS but also provide opportunities to meet others.

Please feel free to email your questions and comments to volunteers@californiaancestors.org or email **Jane Knowles Lindsey**. We would love to hear from you!
